

Dear Parents,

Miquill Catering will be taking over the catering service for school lunches from **Monday 29th April**

We are a small, founder-led business based in the West Midlands and Worcestershire. We have a fresh, personalised and personable approach with delicious and nutritious meals specifically in schools

Our Food

All of our food is cooked onsite, using fresh, healthy and sustainable ingredients to ensure that pupils will enjoy delicious, nutritious meals everyday. The menus are selected to comply with the Government's legislation for healthy eating and provide the right balance of nutrition to give children what they need.

Our People

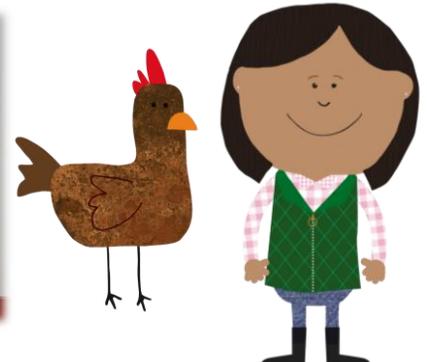

We value and nurture our highly-experienced chefs who are inspirational in ensuring that the food provided is of excellent quality. They, in turn, nurture the children in the arena of healthy eating. All of our staff are fully trained and assessed in food hygiene, leading to Five Star ratings at our establishments.

Our Suppliers

We are proud to use seasonal produce as much as possible and research to support credible suppliers that are local to each customer.

The more locally we buy, the fewer food miles our goods travel. This not only helps reduce the impact our provision of catering services has on the environment but it means that our customers also enjoy great tasting, fresh and seasonal food.
